

K-LOVE radio puts me in a happy frame of mind as I drive to work every morning. It helps me remain calm in a frantic, congested city.

K-LOVE radio is a refreshing, encouraging source of positive music and comments in a radio world of negative and/or ultra-liberal, media. Most of the radio with music is sad, or obnoxious, plus you have to listen to the primadonna dj's who may not be shock jocks but it's mostly drivel.

Our community needs this type of programming if for no other reason than to give a balance. And we need good Christian music to keep us focused on why we're here!

Thank you for your consideration!
